AI PHONE RECEPTIONIST

LumiDesk

NEVER MISS ANOTHER JOB.

AI phone agents for local service businesses. We answer every incoming call — and now make **outbound calls** too. 24/7, booking jobs and capturing every lead.

ALWAYS ON · BOOKS 24/7 · ANY LANGUAGE · INBOUND + OUTBOUND

Farid Oladega — Founder · lumidesk.ai · oladegafarid@outlook.com · Deep03 · Oulu, Finland · Pre-seed 2026

01 — THE PROBLEM

EVERY MISSED CALL IS A JOB THAT WENT TO THE NEXT GUY.

1 in 4

calls to small businesses go unanswered — the owner's hands are full.

85%

of callers who hit voicemail never call back. They dial the next name on the list.

€300+

the typical value of a single booked job — lost every time the phone rings out.

For a plumber, a clinic, a salon — the phone *is* the business. And it rings when nobody can pick up.

02 — THE SOLUTION

ONE AI WORKFORCE FOR YOUR PHONE — IN AND OUT.

INBOUND

Answers every call

Picks up 24/7 in a real human voice, books the job straight into your calendar, texts a confirmation, and logs every call to a live dashboard.

OUTBOUND

Makes the calls for you

Dials a whole list on its own — confirmations, follow-ups, lead qualification. Runs your script, asks the questions, and hands back the answers.

Catching the demand that comes in — and reaching out to create more.

03 — HOW IT WORKS

YOUR PHONE RINGS. LUMIDESK PICKS UP.

01 / 04

Answers

Picks up on the first ring, any hour. No hold music, no voicemail.

02 / 04

Books

Checks your calendar and books the slot while you keep working.

03 / 04

Captures

Takes the name, number and reason for every call — even the missed ones.

04 / 04

Reaches out

Runs outbound campaigns: confirmations, follow-ups, qualifying leads.

All of it logged and visible — your whole phone line, finally on autopilot.

04 — WHY NOW

THE VOICE FINALLY SOUNDS HUMAN.

”AI voices crossed the line — callers can’t tell, and don’t hang up.”

— THE TECH

”Every local business has the same wound: the phone rings while their hands are full.”

— THE MARKET

”A human receptionist costs €2,500+ a month. We’re a fraction of that — and never sleep.”

— THE WEDGE

The technology, the cost curve, and the pain all crossed over at the same moment.

05 — MARKET

MILLIONS OF BUSINESSES. ONE UNANSWERED PHONE.

24M+

small & medium businesses across the EU that live and die by the phone.

€2,500/mo

the human receptionist we replace. We deliver it for a fraction, around the clock.

0.1% = €40M ARR

capture even a sliver of EU SMEs at our pricing and it's a real company.

We grow bottom-up: one market, one language at a time — starting in the Nordics, then the GCC.

06 — TRACTION

A LIVE PRODUCT, AND REAL PULL.

SHIPPED

Full product, live in the cloud

Inbound receptionist deployed end-to-end — real calls, calendar booking, knowledge base, dashboard. Not a prototype.

PIPELINE

Pilot talks on two continents

A Riyadh firm referring us into a law practice; a North-America partner scoping an outbound deal. Inbound *and* outbound validated in the market.

NEXT

Interest turning into pilots

A growing inbound waitlist and warm intros converting into our first paying pilots across the EU and GCC.

Built solo and capital-efficient — a full, deployed product before raising a cent.

07 — BUSINESS MODEL

SETUP FEE, THEN MONTHLY RECURRING.

STARTER

€79/mo

+ €249 one-time setup

- ✓ Inbound, answered 24/7
- ✓ Up to 100 calls / month
- ✓ Books one calendar, texts leads

MOST POPULAR

PRO

€149/mo

+ €249 one-time setup

- ✓ Everything in Starter
- ✓ Unlimited calls (fair use)
- ✓ Auto text follow-up + answers hours & pricing

OUTBOUND ADD-ON

€99/mo + usage

per connected call

- ✓ Outbound campaigns at scale
- ✓ Confirmations & follow-ups
- ✓ Lead qualification, scripted

~€0.40 cost per call · 55–70% gross margins at normal volume · setup fee funds concierge onboarding.

08 — THE ASK

RAISING €150K PRE-SEED.

Angel pre-seed, plus **Business Finland grant funding in parallel** (non-dilutive) — to reach first revenue and our first paying cohort.

LAND CUSTOMERS

First paying cohort

Across the EU, plus a KSA Arabic demo to open the GCC.

HIRE

Sales + a developer

A sales & marketing lead and one more engineer.

BUILD OUTBOUND

Make it repeatable

Turn the outbound deal into a productised line.
